EXPANDING HEALTHY FOOD INCENTIVES ACROSS NORTH CAROLINA

THE RETURN ON INVESTMENT

For more than a decade, healthy food incentive programs have increased the purchasing power of low-income families to buy fruits and vegetables at grocery stores and farmers’ markets, thereby helping to reduce hunger, improve nutrition and support North Carolina’s agriculture and retail.

IMAGINE THE ECONOMIC IMPACT OF HEALTHY FOOD INCENTIVES, IF THEY WERE AVAILABLE ACROSS NORTH CAROLINA

ECONOMIC MULTIPLIER
1.4
Contribution to North Carolina’s economy for every $1 spent on incentives

LABOR INCOME
$11M – $21M

JOBS
273 – 532

STATEWIDE ECONOMIC CONTRIBUTION
$31M – $60M

Extra in their pockets to spend on fruits and vegetables each year

FAMILIES
$23M – $45M

The research highlighted in this brief is based upon analysis conducted by a team of economists at Colorado State University, led by Dr. Dawn Thilmany, in partnership with SPUR, Fair Food Network, and a coalition of ten additional implementing partners across nine states in the US, including Reinvestment Partners. For the full details of methodology and findings see: fairfoodnetwork.org/incentivesimpact

1 The ranges presented here reflect low-bound and high-bound scenarios based on assumptions of annual SNAP participation, the percent of grocery stores, corners stores, and farm-direct retail outlets that would offer incentives.
